

HOUSE JOINT RESOLUTION NO. HJ0001

Pornography as a public health crisis.

Sponsored by: Representative(s) Lone, Blackburn, Clem, Edwards, Gray, Jennings and Olsen

A JOINT RESOLUTION

for

1 A JOINT RESOLUTION recognizing pornography is a public
2 health crisis leading to a broad spectrum of individual and
3 public health impacts and societal harms.

4

5 WHEREAS, pornography perpetuates a sexually toxic
6 environment; and

7

8 WHEREAS, efforts to prevent pornography exposure and
9 addiction, to educate individuals and families concerning
10 its harms and to develop recovery programs must be
11 addressed systemically in ways that hold broader influences
12 accountable; and

13

14 WHEREAS, pornography is contributing to the
15 hypersexualization of teens, and even prepubescent
16 children, in our society; and

1

2 WHEREAS, due to advances in technology and the universal
3 availability of the internet, young children are exposed to
4 what used to be referred to as hardcore but is now
5 considered mainstream pornography at an alarming rate; and

6

7 WHEREAS, the average age of exposure to pornography is now
8 eleven (11) to twelve (12) years of age; and

9

10 WHEREAS, this early exposure to pornography is leading to
11 low self-esteem and body image disorders, an increase in
12 problematic sexual activity at younger ages and an
13 increased desire among adolescents to engage in risky
14 sexual behavior; and

15

16 WHEREAS, exposure to pornography often serves as children's
17 sex education and shapes their sexual templates; and

18

19 WHEREAS, because pornography treats women as objects and
20 commodities for the viewer's use, it teaches girls they are
21 to be used and teaches boys to be users; and

22

1 WHEREAS, pornography normalizes violence and abuse of women
2 and children and often depicts rape and abuse as if it is
3 harmless; and

4

5 WHEREAS, pornography equates violence towards women and
6 children with sex, which increases the demand for sex
7 trafficking, prostitution, child sexual abuse images and
8 child pornography; and

9

10 WHEREAS, potential detrimental effects on users of
11 pornography can impact brain development and functioning,
12 contribute to emotional and medical illnesses, shape
13 deviant sexual arousal and lead to difficulty in forming or
14 maintaining intimate relationships as well as problematic
15 or harmful sexual behaviors and addiction; and

16

17 WHEREAS, recent research indicates that pornography is
18 potentially biologically addictive, which means the user
19 requires more novelty, often in the form of more shocking
20 material, in order to be satisfied; and

21

22 WHEREAS, this biological addiction leads to increasing
23 themes of risky sexual behaviors, extreme degradation,

1 violence and child sexual abuse images and child
2 pornography; and

3

4 WHEREAS, pornography use is linked to a decreased desire in
5 young men to marry, dissatisfaction in marriage and
6 infidelity; and

7

8 WHEREAS, this link demonstrates that pornography has a
9 detrimental effect on the family unit; and

10

11 WHEREAS, overcoming pornography's harms is beyond the
12 capability of the afflicted individual to address alone;
13 and

14

15 WHEREAS, pornography is thus creating a public health
16 crisis.

17

18

19 NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE
20 LEGISLATURE OF THE STATE OF WYOMING:

21

22 **Section 1.** That the state of Wyoming recognizes that
23 pornography is a public health crisis leading to a broad

1 spectrum of individual and public health impacts and
2 societal harms.

3

4 **Section 2.** That the state of Wyoming recognizes the
5 need for education, prevention, research and policy change
6 at the community and societal level to address the
7 pornography epidemic that is harming the people of our
8 state and nation.
