11 distribution shall be twenty-three million dollars (\$23,000,000.00) on
12 October 1, 2006 and the second shall be twenty-three million dollars
13 (\$23,000,000.00) on October 1, 2007.

14

15 (i) From these distributions each city or town with a
16 population of thirty-five (35) or less shall first receive five thousand
17 dollars (\$5,000.00) and each city or town with a population over thirty-five
18 (35) shall first receive ten thousand dollars (\$10,000.00). From the
19 remainder each city and town shall receive amounts in accordance with a
20 municipal supplemental funding formula as provided in this paragraph with
21 each city or town receiving amounts in the proportion which the adjusted
22 population of the city or town bears to the adjusted population of all
23 cities and towns in Wyoming. The municipal supplemental funding formula
24 shall be calculated by the state treasurer as follows:

25

26 (A) Calculate the per capita distribution of sales and
27 use tax revenues for the preceding fiscal year to each county, including
28 distributions to each city and town within that county, under W.S. 39-15-111
29 and 39-16-111;

1

2

3

(B) Arrange the counties in ascending order by the per capita distribution calculated;

4

5

6

7

(C) Following the arrangement of counties in subparagraph (B) of this paragraph, list the population of each city and town within the county;

8

9

10

11

12

(D) Apply the appropriate adjustment factor determined in subdivisions (I) through (V) of this subparagraph for a county to each city and town within that county:

13

14

15

16

17

18

19

20

21

(I) Beginning with the county with the lowest per capita distribution, an adjustment factor of one and one-half (1.5) shall be applied to each county listed under subparagraph (B) of this paragraph, so long as its incorporated population plus the incorporated population of each county with a lower per capita distribution is within the lowest tenth percentile. The adjustment factor shall be applied for each of these counties by multiplying the incorporated population of the county by one hundred fifty percent (150%);

22

23

24

25

26

27

(II) An adjustment factor determined under this subdivision shall be applied to the county with the next higher per capita distribution not qualifying for the adjustment factor under subdivision (I) of this subparagraph. The adjustment factor for this county shall be determined by:

1 (1) Multiplying by one hundred fifty percent
2 (150%) that portion of the incorporated population of that county which is
3 within the lowest tenth percentile;

4
5 (2) Multiplying by one hundred twenty-five
6 percent (125%) the incorporated population of that county which is within
7 the lowest twentieth percentile and at or above the tenth percentile;

8
9 (3) If applicable, multiplying by one hundred
10 percent (100%) the incorporated population of that county which is at or
11 above the twentieth percentile;

12
13 (4) Dividing the sum of the products of
14 subdivisions (II)(1) through (3) of this subparagraph by the incorporated
15 population of that county.

16
17 (III) If an adjustment factor has not been applied
18 under subdivision (I) or (II) of this subparagraph, an adjustment factor of
19 one and one-quarter (1.25) shall be applied to each county listed under
20 subparagraph (B) of this paragraph, so long as its incorporated population
21 plus the incorporated population of each county with a lower per capita
22 distribution does not exceed the twentieth percentile. The adjustment
23 factor shall be applied for each of these counties by multiplying the
24 incorporated population of the county by one hundred twenty-five percent
25 (125%);

26
27 (IV) An adjustment factor determined under this
28 subdivision shall be applied to the next higher listed county not qualifying

1 for the adjustment factor under subdivision (III) of this subparagraph. The
2 adjustment factor for this county shall be determined by:

3
4 (1) Multiplying by one hundred twenty-five
5 percent (125%) that portion of the incorporated population of that county
6 which is within the lowest twentieth percentile;

7
8 (2) Multiplying by one hundred percent (100%)
9 the incorporated population of that county which is at or above the lowest
10 twentieth percentile;

11
12 (3) Dividing the sum of the products of
13 subdivisions (IV)(1) and (2) of this subparagraph by the incorporated
14 population of that county.

15
16 (V) An adjustment factor of one (1) shall be
17 applied to the remaining counties.

18
19 (E) Distribute the remainder of the revenues under this
20 paragraph on a per capita basis using the total adjusted population for all
21 cities and towns and the adjusted population for each city or town as
22 calculated under subparagraph (D) of this paragraph;

23
24 (F) As used in this paragraph:

25
26 (I) A county's "incorporated population" means the
27 population of all cities and towns within the county;

28

1 (II) "Percentile" means that portion of the
2 incorporated population as listed in the arrangement of cities and towns
3 under subparagraphs (B) and (C) of this paragraph.

4

5 (b) There is appropriated from the general fund to the office of
6 state lands and investments thirty-four million dollars (\$34,000,000.00) to
7 be distributed to counties in two (2) distributions. The first shall be
8 seventeen million dollars (\$17,000,000.00) on October 1, 2006 and the second
9 shall be seventeen million dollars (\$17,000,000.00) on October 1, 2007. From
10 these distributions each county shall receive the following:

11

12 (i) An equal share of fifteen percent (15%) of the total amount
13 to be distributed; and

14

15 (ii) Of the remaining eighty-five percent (85%), an amount to
16 be distributed to each county in the proportion each county's population
17 bears to the total population of the state.

18

19 (c) For purposes of this section, population is to be determined by
20 resort to the latest federal census as periodically updated by the bureau of
21 the census.
