CELEBRATION OF WYOMING EQUALITY DAY
Members of the Senate, today we celebrate Wyoming Equality Day, a holiday to commemorate the life and legacy of Reverend Dr. Martin Luther King, Jr. This is a day for celebration and joining us to pay tribute to Dr. King is our very own Harriett Elizabeth Byrd.

Senator Byrd was the driving force behind passage of today's holiday here in Wyoming. She introduced legislation to make the birthday of the Reverend Dr. Martin Luther King, Jr. a holiday. Her bill was signed into law in 1990, declaring the third Monday in January a Wyoming holiday to celebrate civil rights and equality for all.

President Hines introduced former Senator Liz Byrd and she spoke about Reverend Dr. Martin Luther King, Jr.

President Hines thanked Senator Byrd for joining us today to provide you insights about Dr. King's legacy.

Liz is a member of Cheyenne's Love and Charity Club, which annually sponsors a march up Capitol Avenue on Martin Luther King, Jr. Day. The march will begin at noon today at the Depot Plaza. There will be a celebration at the conclusion of the march on the steps of the Capitol at approximately 12:30 p.m. Please plan to join the festivities during today's noon recess, if your schedule permits.

(a) As used in this article:
(iii) "Substantial endowment gift" means an irrevocable gift or transfer to the University of Wyoming foundation of money or other property by a donor where:
(B) Except as provided by W.S. 21-16-904(a)(ix) for fallen heroes endowments, the gift or property transferred has a fair market value of at least fifty thousand dollars ($50,000.00); and

The match shall be made by transferring from the separate challenge fund account to the appropriate community college an amount equal to the amount accumulated by its foundation. The recipient community college shall immediately transfer matching funds received under this subsection to the community college foundation.
(d) Except as provided in subsection (k) of this section, the state treasurer shall make transfers to the appropriate community college under this section not later than the end of the calendar quarter following the quarter during which foundation gifts total at least ten thousand dollars ($10,000.00). Minority Floor Leader, Senator Sessions seconded the motion.

President Hines stated "You have heard the motion. All those in favor say "Aye" opposed, "No". by your vote, the motion has passed the Senate."

President Hines asked Senate Chief Clerk Diana Williamson to inform the House of Representatives that the Senate, General Session of the 60th Wyoming State Legislature, is ready to adjourn.

Majority Floor Leader Anderson moved that a committee of two be appointed to inform the Governor that the Senate has completed its business and is ready to adjourn; and escort His Excellency, the Governor, Dave Freudenthal to the Senate Chamber.

The Senate will stand at ease until the sound of the gavel.

President Hines called the Senate to order and welcomed Governor Freudenthal to the Senate.

GOVERNOR DAVE FREUDENTHAL’S CLOSING REMARKS
60TH GENERAL SESSION

First of all, I thank you for the opportunity to appear here. I particularly appreciate the fact that we are wrapping up early in the day. I am old enough, and I suspect that there are a few others here who remember the days when they used to pull the plug on the clock and then proceed to enact legislation into the wee hours of the night. I appreciate that you are not doing that anymore.

We are being asked by constituents and the media about how to characterize the session. What are the feats we are suppose to claim that were done and what has been accomplished? I think that the first thing that we have to remember is that the purpose of representative democracy is for us to gather and do the things that need to be done in the context of the times that we are in. The context this year is that we are in a period of transition in Wyoming, moving from a period of extreme and delightful revenues to a period of much more constrained revenues. We’re doing our work and trying to make decisions knowing that the future is going to be difficult. But there remains much uncertainty about exactly how difficult and for how long. As a consequence that has had, I think, a bit of a dampening effect on people’s dreams and hopes for the state, because we have to operate in the context of the limited revenues we have. In addition, this session is timed so that it is sort of the start up for the 2010 election for people who have hopes and dreams about where they want to live come 2011, and that too colors the nature of the session.

I do find some things of which we should be appropriately proud. I am pleased that we have decided to finish out the capital construction agenda - the remaining parts that were in place prior to the decline in revenues. We shaved it some, but we made sure that the money gets spent, and it will put people to work around the state. I also believe that there are some issues that have been out there for years that we finally finished off for example, helium taxation. Another is court-ordered treatment, otherwise known as drug courts, which for those of you are here for my first session, you will remember that I talked about it that session. I talked about it the next session, the next session and the next session. Next year, don’t think I will have to talk about it. They finally finished it off. I think we made some significant progress in Worker’s Compensation. I also think that the ignition lock bill was a good bill, and I was a little nervous, because the committees hadn’t yet reported out, but I was delighted to learn that is now done.
Having listened to the closing press conference earlier today, I decided I have to share with you an example of political spin. We are all going to be asked what it is we did this session and really, the answer comes down to spin. This particular story relates to Senator Harry Reid, the majority leader in the U.S. Senate, and his family. He has an uncle who had a notorious past in Montana. The history as recorded on the back of a photograph of the hanging shows that Remus Reid, horse thief, was sent to Montana Territorial Prison in 1885. He escaped in 1887, robbed the Montana Flyer six times, was caught by Pinkerton Detectives and was convicted and hanged in 1889. If you contact Senator Reid's staff, they will send back the following description of his uncle: "Remus Reid was a famous cowboy in the Montana Territory. His business empire grew to include acquisitions of valuable equestrian assets, and intimate dealings with the Montana Railroad. Beginning in 1883, he devoted several years of life to government service, finally taking leave to resume his dealings with the railroad. In 1887, he was a key player in a vital investigation run by the renowned Pinkerton Detective Agency. In 1889, Remus passed away during an important civic function held in his honor when the platform on which he was standing collapsed."

I do want to talk a bit about what I see coming, most of it is particularly unpleasant, and most of you are as well aware of it as I am. The natural gas price today at OPAL was $2.70. A year ago, the natural gas price at OPAL was $8.62. We are now confronted with a revenue stream that is based on a mineral value that is only one third of what it was a year ago. That will manifest itself fairly quickly for those agencies and entities like the community colleges and the University of Wyoming that are being funded out of current revenues. It will manifest itself much slower with regard to the School Foundation Program, because those revenues lag at least a year because they are based on property tax. So today, we are funding operating agencies on a $2.70 base while the K-12 system through the School Foundation Program is still taking advantage of an $8.63 value in terms of funding. So as this sorts out, you will first see the impact of these numbers on the operating agencies and on the institutions such as the university and community colleges, and then as the years go by, if these numbers remain, we will see that the same effect manifested in the K-12 School Foundation funding. I have heard the argument that we don't need to worry about it, because much of the gas in Wyoming is under contract. It is true that much of the gas is under contract, but those contracts are indexed to these kinds of indices of value. So as we look forward, it is going to be a very different future than we have enjoyed for the last six to eight years.

As you know, I have asked agencies to come up with suggestions for possible cuts to their budgets depending on the estimates we get from the Consensus Revenue Estimating Group. If those numbers are as expected, some form of reduction is going to have to be put in place. You can tell that everybody believes that their agency or their mission is one that shouldn't be cut, and I only wish that were true. Fundamentally, this is going to be broad-reaching enough that over the next two or three years, absent some amazing turnaround in the economy, we are going to see that all of the programs each of us hold near and dear will have to take adjustments and learn to live with less. I appreciate the support that has been given by the Legislature to our
efforts to first try to manage this downturn in revenues by asking people and agencies for their suggestions about what they believe are the appropriate reductions. But as you know, in the absence of that occurring, we will still have to make those cuts. The much dreaded across-the-board cut hopefully can be avoided. We can do this right. We cannot and will not borrow money, we cannot and will not spend money we do not have.

The reason I bring it up, is that as we go through this process over the summer, each of you will be approached by interest groups who will say, "Surely this can't happen to me." I have already noticed from both my correspondence and from other things that these are suddenly the Governor's budget cuts. I accept that this may be a time I get through with by asking you for an enhanced budget for executive protection.

What I need each of you to do is to take what we all learned here about economic uncertainties and the way the revenue picture is going to change and carry it home with you. Make sure that people understand that this isn't one group or one region that is being singled out. This is something that we are going to go through as a state for the next couple or three years and it is going to be difficult. I know that each of you will be required by some constituent or some group to call and make your plea that they should be spared the budget reductions. Understand that when I say "no" everyone is participating, it's not personal and it's just the way that it is going to have to be to make it work.

I appreciate the way that we have chosen to handle the national economic stimulus bill in this state, and I will be careful. It is my view that there are some things in the bill that are going to be useful to us and there are some things that we are not going to want to do. Right now we have, frankly, a lack of clarity on some of the requirements that are attached to the money. Highway dollars, as you know, are pretty clear. Safe Drinking Water Act and Clean Water Act dollars are also pretty clear. We have moved on those and will continue to move on them. But some of the other areas are significantly less clear. In recognition of the latitude that you have given us, we have made sure that we include LSO staff and others to participate in meetings on the stimulus bill. I think this is going to be something we will struggle through over the next five or six months to get an idea about how it is going to work.

Again, I thank you. I thank you for your work. I actually do believe that the Legislature and the citizens of the state are up to the task in front of us which is fairly simple. We have to figure out how to sort through this and live on reduced revenues, making sure we fund the things that are critical to getting the mission accomplished to serving the citizens of our state. There has to be an understanding that there are things that we are going to have to defer, things that are going to have to wait another day.

When I was at the annual meeting of the National Governors Association earlier this year, I listened to a great man give a speech. He placed great emphasis on a line offered by a British general more than 100 years ago, who realized that he had run out of resources. The general looked around at his troops and said, "Gentlemen, we have run out of
money, now we must learn to think." God bless you, and thank you for what you do.

President Hines thanked Governor Freudenthal for his closing remarks and asked Senator Peterson and Senator Decaria to escort His Excellency, the Governor from the Senate chamber.

Majority Floor Leader Anderson moved the following:

1. That the Senate of the 60th Wyoming State Legislature, General Session adjourn until a date and time which are determined jointly by the President of the Senate and by the Speaker of the House of Representatives for the purpose of calling the Senate and House

2. That if no such time is established before, December 31, 2009, the Senate, 60th Wyoming State Legislature, General Session, is adjourned sine die effective at 12:00 o'clock noon on that date and the Legislative Budget Session convene on the 8th day of February, 2010, at the hour of ten o'clock a.m.

3. That the Senate specifically concurs in any identical motion adopted by the House of Representatives.

4. That if the House of Representatives fails to concur in the action of the Senate under paragraphs 1 through 3 of this motion be adopting an identical motion applicable to the House of Representatives, the Senate of the 60th Wyoming State Legislature, General Session, shall stand adjourned sine die.

President Hines called for the vote. The motion passed the Senate.

Senator Dockstader reported that the Journal of March 5, 2009, has been read and recommends that it be approved.

There was no objection and the report was adopted.

President Hines stated "Subject to the conditions set forth in Majority Floor Leader Anderson's motion, the Senate of the 60th Wyoming State Legislature, General Session, is adjourned and shall convene the Legislative Budget Session on the 8th day of February, 2010, at the hour of ten o'clock a.m."

"The Senate is adjourned."

Diana Williamson
