14 new subsection (f) are amended to read:

6 this section, commencing with the 2015 fiscal year the
7 board shall assess employers for contributions in an annual
8 amount necessary to achieve a projected one hundred percent
9 (100%) actuarial funding level for the account by the end
10 of fiscal year 2024. The total assessment shall be paid
11 proportionately by employers with payments allocated to
12 each employer by the board. The amount allocated shall be
13 determined by multiplying the total amount necessary for
14 each fiscal year by a fraction, the numerator of which is
15 the amount projected to be paid in the upcoming fiscal year
16 to all benefit units attributable to the employer and the
17 denominator of which is the total amount projected to be
18 paid in the upcoming fiscal year to all benefit units under
19 this article. The board shall provide to each employer by
20 August 1 of the fiscal year in which payment is due an
21 assessment of the amount due. The employer shall pay the
22 contributions in quarterly payments not later than
23 September 1, December 1, March 1 and June 1 of the same

5 provided in W.S. 39-14-801(f). Any delinquency not
6 satisfied by that withholding may be recovered in the
7 manner provided in subsection (d) of this section, together
8 with interest as provided therein. The board shall review
9 the assessments annually and adjust the assessment as
10 necessary to achieve a projected one hundred percent (100%)
11 funding level using the board's prevailing assumptions and
12 actuarial methods. The board is authorized to discontinue
13 assessments and to reinstate assessments at the
14 commencement of any fiscal year, and to continue
15 assessments beyond fiscal year 2024, as necessary to
16 maintain a funding level of one hundred percent (100%). No
17 employer shall be entitled to a return of any assessment
18 under this subsection should the funding level exceed one
19 hundred percent (100%). The board shall report the
20 assessments, assumptions, methods and projected funding
