Catch Title: Exemption-water utilities.

Subject: Exempts metered and other direct sales of water by a person to his tenants from regulation as a public utility

Summary/Major Elements:

- Under current law, the sale or distribution of water to the public may be regulated as a public utility. While there is an exemption for water companies furnishing water service to members of companies or associations, there is no exemption for a person who sells water services directly to his tenants.
- This bill would exempt metered and other direct sales of water by a person to his tenants from regulation as a public utility.
