"(iv) In addition to any other restrictions, the funds appropriated under subparagraphs (b)(i)(C) and (b)(i)(H) of this section shall not be expended for level III planning and design without the approval of the state loan and investment board, subject to the following:

(A) Plans shall address one (1) building and related facilities at a time;

(B) The total expected cost of the facilities proceeding to level III planning and design shall be within the funds already appropriated for that purpose;

(C) The facilities which receive level III planning and design will function and help alleviate operating problems even if the state is unable to construct additional facilities for an extended period due to lack of resources.". SCOTT
