Catch Title: School capital construction-charter school leases.

Subject: Clarifies payment for leases executed by public charter schools

Summary/Major Elements:

- The law previously allowed for the payment of leases for charter schools operating as a part of a school district only in the event the lease was executed with the school district and not directly with the charter school.
- This act clarifies payment will be made by the state for space leased by a charter school operating lawfully as a part of a public school district for the purpose of offering required educational programs.
- This act also provides that payment by the state for a lease for the operation of a charter school is limited to the square footage necessary to deliver the required educational programs and is limited to the average cost per square foot for square footage comparable to that appropriate for the delivery of public K-12 education.
