Catch Title: Obsolete reporting requirements-repeal and modification.

Subject: Obsolete reporting related to DFS.

Summary/Major Elements:

- This bill repeals or modifies reporting requirements related to the Department of Family Services (DFS) that are obsolete or no longer necessary.
- The bill makes policy planning reports due to the Governor from human services agencies, including DFS, due upon the Governor's request, rather than making the reports mandatory.
- The bill makes state agency plans that were previously due to the Governor every two years, due only as required by the Governor or the Legislature. The plans, when due, must outline a general "multi-year" plan, where they previously were required to outline a four year plan.
- The bill eliminates a report by DFS, previously due each year, concerning enrollment in approved education programs by recipients of public assistance and social services.
- The bill eliminates unnecessary: local child protection agency reporting and record keeping obligations, annual child support enforcement program reports, annual updates to comprehensive social services plans and requirements for employment and training program record keeping.
