

FISCAL NOTE

The fiscal impact is indeterminable.

This bill may have a fiscal and administrative impact to the Industrial Siting Division agency resources. The bill requires public notice, a hearing and decision of the Industrial Siting Council. Each proceeding includes publishing legal notices, hosting a public hearing that is transcribed by a court reporter, and issuing a decision from the Council. The estimated high-end cost of such a proceeding is \$14,100. The bill provides the Director discretion to require a fee paid by the petitioner to cover this expense. It is infeasible to estimate how many persons might utilize this process.

There is also an indirect fiscal and administrative impact to the Industrial Siting Division agency resources as the bill would require development of new rules and a new public notice format to meet the directive of the proposed changes.
