

Bill No.: SF0010 **Effective:** Immediately

LSO No.: 18LSO-0208

Enrolled Act No.: SEA No. 0027

Chapter No.: 57

Prime Sponsor: Joint Corporations, Elections & Political Subdivisions Interim Committee

Catch Title: **Utilities-rate making.**

Subject: Matters for the Public Service Commission to consider in setting utility rates.

Summary/Major Elements:

- This act would require the Public Service Commission to consider in setting rates the purchase power cost from a qualifying facility, but only if the cost of the energy or capacity (or both) are less than or equal to the utility's avoided cost considering the cost of energy or capacity from all other available sources and the incremental cost of transporting the energy from a qualifying facility to customers.
- This act also defines "avoided cost" for the purposes of a distribution cooperative that is an all-requirements power supply customer and defines "qualifying facility" to mean one that meets the qualification standards found in federal regulations.

The above summary is not an official publication of the Wyoming Legislature and is not an official statement of legislative intent. While the Legislative Service Office endeavored to provide accurate information in this summary, it should not be relied upon as a comprehensive abstract of the bill.
