

FISCAL NOTE

The fiscal impact, in the form of increased expenditures, is indeterminable.

This bill would allow legislative members the option to receive a constituent service allowance reimbursement of up to \$1,500 per calendar quarter for actual mileage driven and actual lodging expenses incurred in providing services to constituents. Legislators currently receive a constituent service allowance of \$750 per calendar quarter.

The potential fiscal impact of this bill would be up to \$750 for each legislator that elects to be reimbursed based on actual mileage driven and actual lodging expenses incurred. The fiscal impact of this bill is indeterminable, because it is unknown how many legislators will elect to receive their constituent service allowance under this proposed option.
