

FISCAL NOTE

The fiscal impact to the Department of Corrections is indeterminable.

There are no current measures that would allow for an accurate prediction of the number of individuals sentenced pursuant to the proposed legislation. Each year of incarceration, per inmate, costs the State approximately \$44,735, including medical costs. The cost for community supervision, per offender, is approximately \$2,000 per year.

The fiscal impact to the judicial system is indeterminable due to an unknown number of cases.

There would be no significant fiscal impact to the Department of Family Services as the Department assumes the current application and verification process and requirements will satisfy the proposed legislation. Currently, all members of the household, regardless of age, are verified through the systematic alien verification of entitlement program.
