

FISCAL NOTE

	FY 2020	FY 2021	FY 2022
NON-ADMINISTRATIVE IMPACT			
Anticipated Revenue increase			
HIGHWAY FUND	\$128,650	\$128,650	\$128,650

Source of revenue increase:

The Department of Transportation estimates that there are currently 245 electric vehicles and 919 hybrid vehicles registered in the state. The additional revenue from these 1,164 vehicles would come from increasing the current \$50 fee on electric vehicles to a \$200 fee and adding a \$100 fee on hybrid vehicles.

Assumptions:

It is unknown how many more or less electric/hybrid vehicles there will be in the future. Revenues are estimated using current vehicle counts.
