

FISCAL NOTE

The fiscal impact, in the form of distributions of net realized capital gains from the General Fund to the Permanent Wyoming Mineral Trust Fund (PWMTF), is indeterminable.

This bill would appropriate from the General Fund to the PWMTF 5% of the PWMTF investment income deposited annually in the General Fund attributable to the net realized capital gains. This appropriation would take place only in fiscal years in which net realized capital gains are \$200 million or more.

The Consensus Revenue Estimating Group (CREG) does not include projections of realized capital gains in the CREG forecast. Therefore, the amount of this appropriation from the General Fund to the PWMTF cannot be estimated.

Any additional fiscal or personnel impact is not determinable due to insufficient time to complete the fiscal note process.
