

**FISCAL NOTE**

	FY 2021	FY 2022	FY 2023
<b>NON-ADMINISTRATIVE IMPACT</b>			
Anticipated Revenue increase			
SPECIAL REVENUE FUND	\$381,000	\$381,000	\$381,000

Source of revenue increase:

An increase in the annual registration fee for registered pesticide products.

Assumptions:

The number of products registered by the Department of Agriculture (Department) annually is 12,700. The Department anticipates the number of products registered to remain consistent. The bill increases the annual registration for each pesticide from \$90 to \$120, or by \$30.

12,700 products registered annually x \$30 increase in the registration fee = \$381,000 revenue increase
