

FISCAL NOTE

This legislation would allow the State Treasurer's Office (STO) to conduct criminal and financial background checks on current and prospective staff. Any expenses associated with conducting background checks will be absorbed within STO. While there is no additional fiscal impact, this legislation would provide future protection and safeguards for Wyoming's investment assets.

On its own, this bill will not result in a significant revenue increase from background check fees or require additional personnel and/or funding. However, passage of multiple bills of this type may result in a cumulative administrative impact to the Attorney General's Office.
