

FISCAL NOTE

The fiscal impact, in the form of an expenditure decrease to the General Fund, is indeterminable.

Impact assistance payments are assessed on a project by project basis. This bill only applies to impact assistance payments for industrial facilities approved on or after the effective date.

The aggregate of existing projects approved is \$57,311,009. If the unmitigated expenses were capped at 1.75%, the General Fund expenses would have been reduced by \$2,867,459.

Any additional fiscal or personnel impact is not determinable due to insufficient time to complete the fiscal note process.
