

FISCAL NOTE

The fiscal impact in the form of a revenue increases or decreases to the Wyoming Livestock Board is indeterminable.

The Wyoming Livestock Board (Board) does anticipate a revenue impact. However, the estimated revenue increase and decrease is indeterminable because the Board does not know how many brands will be affected.

This bill is effective immediately. The Board will need to make a change to the Brand Recording Program and estimated that a total of \$40,000 from the 900 series will be expended during FY 2021. The Board anticipates that their current budget has sufficient funding for the expenditure increase.
