Enrolled Act No.: HEA No. 0075

Chapter No.: 98

Prime Sponsor: Washut

Catch Title: **Emergency call location information.**

Subject: Providing call location information in an emergency.

Summary/Major Elements:

- The act requires wireless carriers and service suppliers to provide call location information for telecommunications devices to law enforcement or a public safety answering point if:
 - The device was used to place a 911 call requesting emergency assistance; or
 - There is reasonable suspicion that the device is in the possession of an individual who is involved in an emergency situation that involves the risk of death or serious physical harm.
- The act requires that records be kept of officers requesting call location information, including a description that explains the need for the disclosure.
- The act provides that wireless carriers and service suppliers may establish protocols for voluntarily disclosing call location information.
- The statewide 911 coordinator shall maintain updated direct contact information for wireless carriers and services suppliers and each carrier or supplier must update the 911 coordinator with any changes.
- The act provides immunity to any public service answering point, wireless carrier, service supplier or any other person who provides call location information pursuant to the act.
