

FISCAL NOTE

This proposed bill is related to the Wyoming Department of Health's (WDH) implemented (Step 2) and proposed (Step 3) budget reductions for the FY2021-2022 biennium. The 2021 Supplemental Budget Bill, House Bill/Senate File 0001, introduced by the Joint Appropriations Committee currently supports these reductions in full and this bill provides the ability for the WDH to implement these reductions without potentially being in conflict with state statute. Subsequent fiscal impacts would be determined by any future legislative appropriation changes.
