

FISCAL NOTE

The Board of Medicine estimates twelve (12) applications per year and a fee of seventy-five dollars (\$75.00) for an estimated annual increase in special revenue of nine hundred dollars (\$900.00). The Board of Medicine estimates additional one-time expenses within the standard budget of roughly nine thousand dollars (\$9,000.00) in FY 2023 to develop an on-line form to accept requests for pre-application determinations. In addition, the Board of Medicine estimates an ongoing annual increase to expenses within the standard budget of roughly five hundred dollars (\$500.00) for payments to the Division of Criminal Investigations for each background check and estimated credit card fees for each on-line request.

All other boards reported this bill would have no significant fiscal or personnel impact.

On its own, this bill will not result in a significant revenue increase from background check fees or require additional personnel and/or funding. However, passage of multiple bills of this type may result in a cumulative administrative impact to the Division of Criminal Investigation.
