Catch Title: **Redistricting of the legislature.**
Subject: Redistricting of the legislature.

Summary/Major Elements:

- The Legislature is required to determine legislative districts according to population every ten (10) years. Pursuant to that law, this act creates new legislative districts based on the 2020 decennial census. The act provides:
 - Thirty-one (31) single member Senate Districts.
 - Sixty-two (62) single member House Districts.
 - Most Senate Districts contain two wholly nested House Districts. There are two (2) Senate Districts that are un-nested with the underlying four (4) House Districts.
- This act provides legislative findings for the areas of the redistricting plan that have a larger variance in deviation from the ideal district population size.
- The act specifies that it is effective for the 2022 general election cycle and the sixty-seventh legislature and that the act shall not affect the terms of members of the sixty-sixth legislature. The act provides that it does not affect the terms of current Senators.
