"99-99-210. Projects authorized; financing; excess water.

(g) All effluent from the city of Cheyenne's sewage treatment plant resulting from Stage II municipal water (Stage II effluent) shall be assigned to and marketed by the Wyoming water development commission until the city of Cheyenne develops the ability and the need to recycle or use that water for municipal purposes. Sale contracts entered into by the commission shall be administered by the commission. The board shall provide thirty-seven and three-tenths percent (37.3%) of the proceeds of the sale of Stage II effluent to the city of Cheyenne for its use. The water development commission may withdraw up to sixty-two and seven-tenths percent (62.7%) of the Stage II effluent from sale and the city of Cheyenne may withdraw up to thirty-seven and three-tenths percent (37.3%) of the Stage II effluent from sale. If either the city or the commission withdraws any portion of its share of Stage II effluent from the market its share of revenues generated by sale of the remainder shall be reduced proportionately. The sale or withdrawal from sale of Stage II effluent shall not be accomplished without consultation among the commission, the city and the state engineer. Because the effluent affected hereby is a by-product of the Stage II dams and pipeline projects, there are no restrictions on the city of

Cheyenne's use of its share of the revenues generated by the sale of Stage II effluent.". ROTHFUSS
