STATEWIDE TRANSPORTATION IMPROVEMENT PROGRAM (STIP) STATEWIDE TRANSPORTATION PLANNING PROCESS CERTIFICATION

In accordance with 23 CFR 450.218, the Wyoming Department of Transportation hereby certifies that its statewide transportation planning process is addressing major issues facing the State and its non-urbanized areas, and is being carried out in accordance with the following requirements:

1. 23 U.S.C. 134 and 135; 49 U.S.C. 5303 and 5304; and 23 CFR Part 450;
2. Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21;
3. 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex or age in employment or business opportunity;
4. Section 1101(b) of the FAST-Act (Pub. L. 112-141) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in USDOT funded projects;
5. 23 CFR part 230, regarding implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
6. The provisions of the Americans with Disabilities Act of 1990 (42 USC 12101 et seq.) and USDOT regulations "Transportation for Individuals with Disabilities" (49 CFR Part 27 (Nondiscrimination on the Basis of Disability in Programs or Activities Receiving Federal Financial Assistance); 49 CFR Part 37 (Transportation Services for Individuals with Disabilities (ADA)); and 49 CFR Part 38 (Americans with Disabilities Act (ADA) Accessibility Specifications for Transportation Vehicles);
7. Sections 174 and 176 (c) and (d) of the Clean Air Act, as amended (42 U.S. C. 7504, 7506 (c) and (d)) and 40 CFR part 93;
8. The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
9. Section 324 of title 23 U.S.C., regarding the prohibition of discrimination based on gender; and
10. Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.

TRANSPORTATION INTRODUCTION

The Wyoming Department of Transportation utilizes a continuing and comprehensive process of Long Range Transportation Planning, Asset Management, and Performance Management, that encourages input from various sources to assist in determining transportation system projects that will maintain and enhance Wyoming's Transportation system (see attached flowchart). Input from engineering studies, the collective judgment of the Transportation Commission, and the Department of Transportation, transportation system projects are culminated into the Statewide Transportation Improvement Program, commonly known as the STIP. The STIP is not meant to serve solely as an accounting document. Rather, it is a snapshot of expected projects and their schedules, which is continually being updated.

The Wyoming STIP is a six-year approved program. The STIP is fiscally constrained for the years 2019-2024. The financial budget is constrained based on projected federal and state funding. The actual funding level that will be available depends upon Congressional appropriations as well as State appropriations. This STIP presents the planned construction and preliminary engineering programs for fiscal year 2019. Preliminary Engineering for most projects are approved several years before a project is constructed, and represent an average of ten percent of the estimated construction cost. These costs are accounted for in the budget fiscal report and are not included in the project listing. Preliminary engineering is also programmed for some projects having an anticipated construction date beyond fiscal year 2024. This is due to a need to indicate planned continuity of construction or because of an anticipated lengthy preliminary engineering process. Right of way costs are accounted for as a budget item and are also accounted for in the overall financial plan. The Wyoming Department of Transportation fiscal year is October through September.

Since both the nature of the projects and the funding is dynamic, and subject to many sources of change, the STIP is inherently fluid. Scheduling projects for improvement is a very complex undertaking in that there are a very large number of challenges that must be addressed prior to a project being ready for letting. Many of these challenges are outside of the Department's ability to predict or control at the time the project is initially programmed or scheduled. Some of the challenges faced can be funding source changes, increases in construction costs, right-of-way acquisition delay, and environmental issues. Wyoming continues to be faced with cost volatility for some construction materials, such as oil, steel, cement and some sources of aggregate. WYDOT is also taking advantage of new technology to help identify the roads that have the highest return on investment and is using this data to create a system preservation focus for the Wyoming Transportation network. Changes to the STIP, whether from public input, funding issues, etc., are handled on a quarterly basis, and are approved by the Transportation Commission. The quarterly addendums are posted on the WYDOT website at the link shown in a paragraph below.

WYDOT pledges to do its best to adhere to this program and to serve the public interest through these projects. WYDOT values your input, advice, and support. Any significant changes in either revenues and/or expenses will result in adjusting the schedule of projects. This document is divided by county alphabetically along with a various section, which includes projects in more than one county. Maps of the seven Transportation Commission Districts, five Aeronautics Commission Districts as well as the Transportation Department's five Construction and Maintenance Districts are included for reference purposes. The map for each county indicates projects scheduled for construction in Fiscal Year 2019 and future years. The county maps contain the primary location of the project. Aeronautics, transit, communications commission and capital improvement projects are shown at their locations for FY 2019.

For an inter-active view of the projects in the STIP go to: <https://apps.wyoroad.info/itsm/map.html>. For an online view of the STIP follow the link: http://www.dot.state.wy.us/home/engineering_technical_programs/stip_project_listing.html

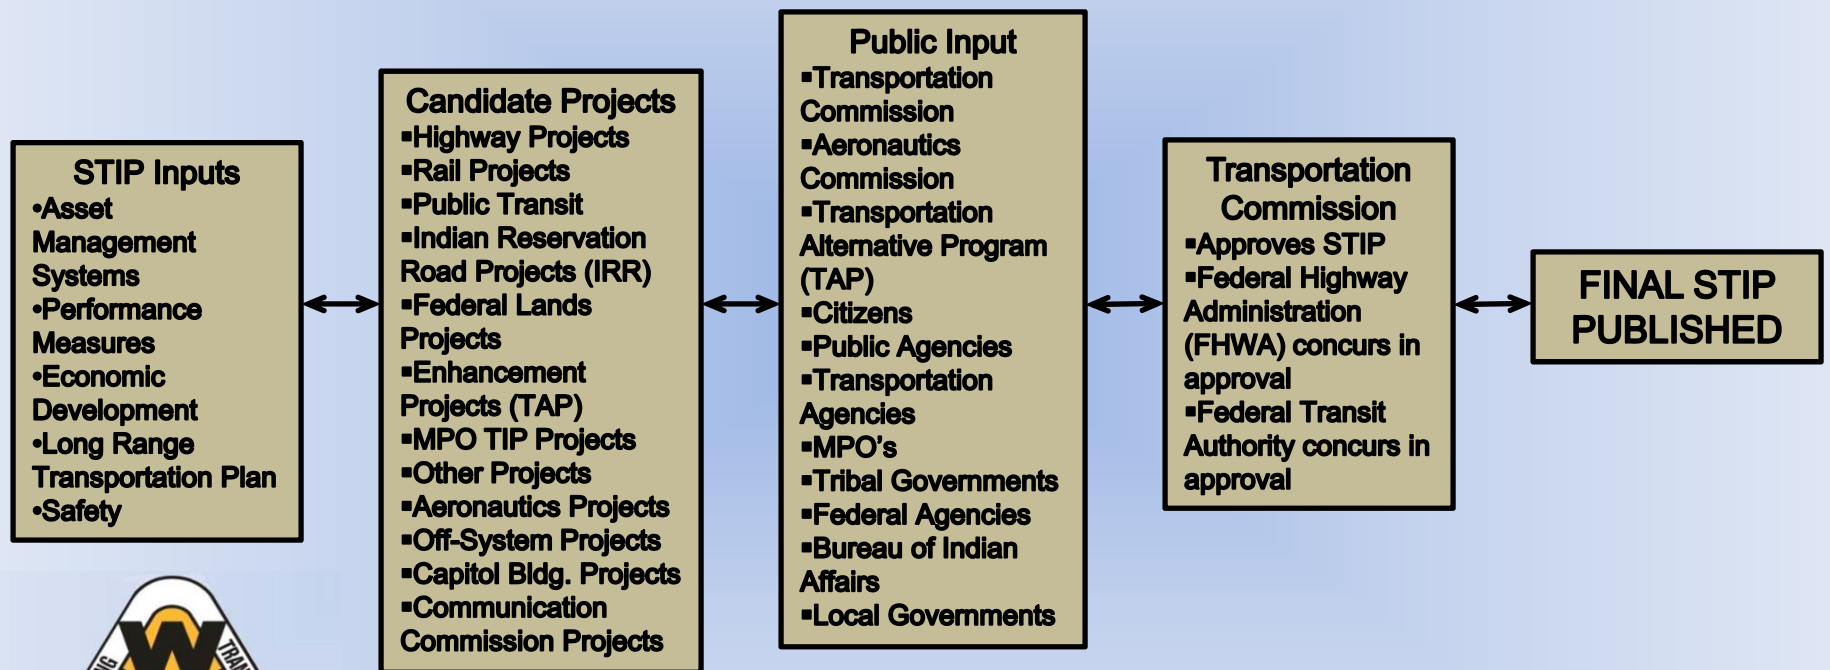

WYDOT utilizes an extensive public involvement process for development and implementation of the STIP. Once projects have been identified in the planning process and proposed for the STIP, the document is released for public review and comment. WYDOT reviews the proposed STIP with the public in the spring at a number of meetings throughout the state, often using open house style forums in individual counties. After the initial input is received, a draft STIP is then available for public comment for at least 30 days, beginning in August. The STIP is then presented to the Transportation Commission, with the comments received, at its September meeting.

More information on WYDOT's public involvement process can be found in the Public Involvement Handbook at: <http://www.dot.state.wy.us/files/live/sites/wydot/files/shared/Public%20Affairs/District%20Info/2011%20Public%20Involvement%20Handbook.pdf>

Public involvement activities inform the public and gather information about concerns and impacts a project may have on communities. WYDOT evaluates many impacts at each step of the transportation life cycle, including the long range plan, selection of projects for the STIP, impacts of project alternatives, construction, maintenance, and performance monitoring. Of special concern is ensuring minority and low-income populations are not disproportionately impacted by transportation projects, also known as Environmental Justice. The WYDOT Planning Program evaluates the state for areas of minority and low-income populations, ensures additional measures are taken to ensure the full and fair participation by all potentially affected communities during the long range planning process and the project selection process. WYDOT also evaluates the performance of the transportation system within those areas to ensure that transportation disadvantaged populations are not being underserved. In addition, special care is taken after the project is selected to ensure smaller communities are not disproportionately impacted.

NOTE: Project cost estimates contained in the publication, as always, represent the planning estimates of the project. These include: construction and construction engineering costs. They do not represent the final estimated construction cost of any project which goes to letting for bid by contractors.

ELEMENTS COMPRISING THE WYOMING STATE TRANSPORTATION IMPROVEMENT PROGRAM (STIP)

OTHER PROGRAM FUNDS

INDIAN RESERVATION ROADS:

The Indian Reservation Roads projects are included if their submittal was received prior to the printing of this document.

METROPOLITAN TRANSPORTATION IMPROVEMENT PROGRAMS:

The Casper Metropolitan Transportation Improvement Program (MTIP) and the Cheyenne MTIP for Fiscal Years 2018-2021, and as amended, are included in the STIP by reference, and are available at:

Casper MTIP:

http://www.casperwy.gov/UserFiles/Servers/Server_62983/File/Government/Departments/Community%20Development/MPO/FY18-21%20MTIP%20Amendment.pdf

Cheyenne MTIP:

<https://www.plancheyenne.org/transportation/transportation-improvement-program/>

The transit dollar amounts shown in both the narrative and on the county pages do not reflect the entire amount for each MPO. These amounts shown in this STIP represent the State local share. For total Program amounts refer to the Community's MTIP.

FEDERAL LANDS HIGHWAY PROGRAMS:

Wyoming is administratively assigned to Central Federal Lands and Western Federal Lands, but projects are occasionally assigned to Eastern Federal Lands. Federal Lands Transportation Improvement Program projects are included in the STIP by reference, and are available at:

<https://flh.fhwa.dot.gov/programs/flpp/tip/>

Transportation Projects Character of Work

Character of Work	Description	Examples
ADA IMPROVEMENTS	Work to address pedestrian access and mobility	wheel chair ramps, curb ramps, correcting uneven surfaces, installation of truncated domes
ADDITIONAL LANES	Projects to improve capacity and/or mobility	passing lanes, additional through lanes, truck lanes, climbing lanes, multi-lanes
BRIDGE REPLACEMENT	Replacement of existing bridge	new bridge, large culvert, or reinforced box culvert
COMMUNITY DEVELOPMENT	Enhancements projects (non-highway related work)	pedestrian and bicycle facilities, recreational trails, pathways, safe routes to school projects, community improvements, environmental mitigation related to transportation, entry signs, decorative railing or lighting
DRAINAGE REPAIR	Work to address erosion, flood, or other water related damage	flood repairs to slopes, riprap repair or replacement, pipe inlet or outlet repairs, cleaning out culverts and ditches, replacing damaged culverts, debris removal
ENVIRONMENTAL	Projects to address environmental issues	wetland mitigation or monitoring, dust suppression, wildlife crossing, fish passage
FENCING	Projects to address fencing needs	add, replace or repair fence, deer/wildlife fence, right-of-way fence
GENERAL MAINTENANCE	Work to address maintenance or preservation needs	aggregate, salt/sand supply
GRADING	Dirt work only, no paving	adding dirt shoulders, safety grading for guardrail, flattening slopes
GUARDRAIL	Work to provide protection of obstructions within the highway clear zone	add, replace or repair guardrail, w-beam or box beam guardrail, concrete barrier (permanent or temporary), end treatments, crash cushions, cable rail
ITS	Intelligent Transportation System work	dynamic message signs, variable speed limit signs, RWIS stations, web cameras, ice detection, special software
LIGHTING	Work to install lights to improve safety at interchanges, intersections, roads, etc.	high mast tower lights, interchange and intersection lighting, decorative lights
MODIFY INTERCHANGE	Highway interchange modifications	ramp modifications, adding ramps, removing ramps, modify geometrics
MODIFY INTERSECTION	Highway and street intersection modifications	modify intersection geometrics, signal additions or upgrades, turn lanes
NEW CONSTRUCTION	Work to build a new roadway or bridge on a new alignment	new roadway or bridge in a location that did not previously have one
PARKING	Projects to address need for vehicle parking	truck parking areas, tourist pull out areas, parking lots
PAVEMENT MAINTENANCE	Preserve existing pavement surface	crack seal, pothole patching, machine placed patching, joint seal, slab replacements, grinding, dowel bar retrofit
PAVEMENT REHABILITATION	Correct functional and structural pavement deficiencies	mill and/or leveling followed by overlay (greater than 2"), crack & seat, isolated reconstruction
PAVEMENT RESURFACE	Correct functional pavement deficiencies (IRI/rutting/thermal cracking)	thin overlay (2" or less), microsurface, chip seal
PORT OF ENTRY	Projects to address needs at Ports of Entry	work in and around a port of entry including buildings, parking lot, scales, lighting, signing
RAILROAD	Projects dealing with at-grade railroad crossings	at grade railroad crossing modifications, electrical, signs, quiet zones, circuitry

Transportation Projects Character of Work

Character of Work	Description	Examples
RECONSTRUCTION	Work to rebuild or expand current roadway or bridges	removing and rebuilding roads and structures
REST AREA	Projects to address needs at Rest Areas	work in and around rest areas including building, parking lot, water, electrical, lighting, and septic systems, signing
SAFETY IMPROVEMENTS	Projects to address vehicle crashes and safety and/or mobility of the highway system	curve warning signs, roadway striping, no passing signs, high friction wearing surface, turn lanes, accel and decel lanes, pedestrian crossings, shoulder widenings
SLIDE REPAIR	Work to address geotechnical issues dealing with landslides, rock fall, and slope movements	toe berms, mechanical slide fixes (shear keys, mechanical anchors, shear piles), rock fall mesh, rock fall mitigation, scaling
SNOW FENCE	Addition, removal or rehabilitation of snow fence	install, rehabilitate, recycle snow fence
STRUCTURE REPAIR	Work to address structure conditions or preservation	deck overlay; deck replacement; expansion joint modification; painting; concrete repairs; riprap repairs; slope repairs; bearing device repair or replacement; damage repairs; rehabilitation to large culverts, overhead sign structures, and retaining walls
STUDIES	Projects that may or may not lead to construction	bridge inspection, bridge and pavement management systems, liaisons, studies, planning documents
TRAFFIC SYSTEMS	Projects to improve traffic movements	new or replacement signal poles and devices, signing, signal heads, overhead signs and structures, pedestrian crossing devices, detection
UTILITY	Work to add, replace, relocate, and upgrade utilities within the roadway right of way	adding or relocation power, cable, phone, gas, pipelines, relocating towers or poles, storm drain systems

CAPITAL IMPROVEMENT PROJECTS

The Wyoming Department of Transportation (WYDOT) owns and maintains over 475 buildings throughout the state. Similar to the other state assets, Department staff annually review and prioritize the necessary maintenance, modernization, and capital construction needs. To better evaluate the overall condition of WYDOT facilities and make recommendations for preventative and predictive maintenance needs, as well as modernization and capital construction projects, WYDOT's facility management system is being upgraded to enhance the planning and prioritization of capital projects. Projects with a cost greater than \$15,000 are included in the STIP. Including the capital improvement projects in the STIP process will provide a single source review of the Department's projects.

Remaining Balance 2022***		\$ 46,650,005	

* Includes 2018 obligations on 2019 projects.

** Includes contract lettings and other federal and state mandated programs.

***Funds are accounted for projects that will be programmed for these years. They include: Urban, Rail Highway Crossings, Dust Mitigation, Transportation Commission Projects, Community Development, Maintenance Chip Seals/Patching, Bridge Rehabilitation, etc.

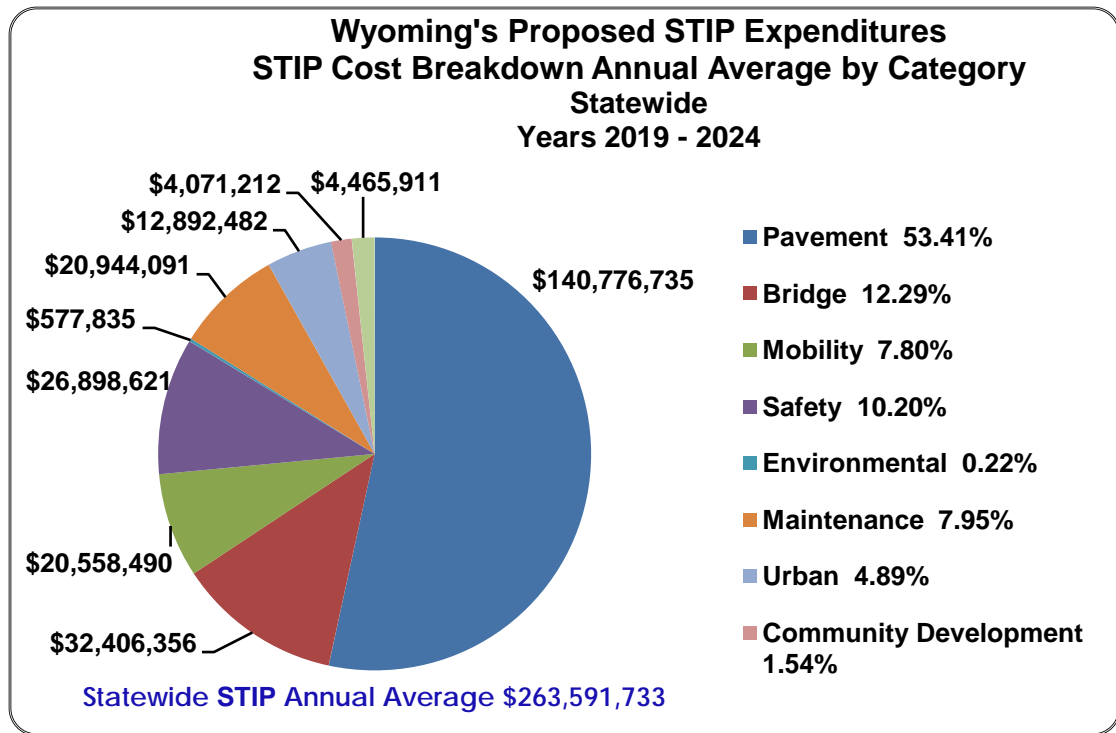

TRANSPORTATION ASSET MANAGEMENT

In compliance with the Moving Ahead for Progress in the 21st Century Act (MAP-21), codified in 23 U.S.C. 119, the Wyoming Department of Transportation (WYDOT) has instituted a Risk Based Transportation Asset Management Plan (TAMP) that focuses currently on pavements and bridges. The projects included in the STIP reflect the results of this plan. The focused investments in this STIP reflect the optimized management practices used by WYDOT. By utilizing and incorporating pavement management, bridge management and safety management within the architecture of asset management, WYDOT is projected to achieve designated performance goals.

The Safety PM metrics are reported through the Highway Safety Improvement Plan (HSIP), as it establishes safety performance measures to carry out the HSIP and to assess serious injuries and fatalities on all public roads. The regulations will improve data, foster transparency and accountability, and allow safety tracking of progress at the national level. They will inform WYDOT and MPO planning, programming, highway safety and decision-making for the greatest possible reduction in fatalities and serious injuries. Safety Performance targets are updated annually, and are based on a 5-year rolling average as required by the safety rule. These targets are the first part of the 4-year performance periods established by the FAST Act to determine significant progress towards performance targets in all performance areas. WYDOT established the first set of performance targets (based on the rolling averages for 2014-2018) in August 2018 as follows: Fatalities - 130, Fatality Rate - 1.400, Serious Injuries - 470, Serious Injury Rate - 5.440, Non-motorist fatalities and serious injuries (pedestrian and bicyclists) - 30.

WYDOT staff continues to ensure the factors within our control are managed as effectively as possible to bring the numbers down – whether through highly effective safety infrastructure projects, targeted safety behavioral campaigns, or implementing new technology that has high potential for crash reduction.

The chart depicts a snapshot of the utilization of planned resources.

ELEMENTS COMPRISING THE COMMUNICATIONS COMMISSION & WYOLINK STATEWIDE COMMUNICATION SYSTEM

TRANSIT INTRODUCTION

GENERAL

Congress establishes the legal authority to commence and continue Federal Transit Administration (FTA) programs through authorizing legislation covering several years. On December 4, 2015, President Obama signed the Fixing America's Surface Transportation (FAST) Act, reauthorizing surface transportation programs through fiscal year 2020. Each reauthorization amends the Federal Transit Laws codified in 49 USC Chapter 53.

The Wyoming Department of Transportation (WYDOT) acts as a facilitator of public transportation services. WYDOT does not directly provide public transportation services, but contracts for services with local, sub-grantee public transportation providers. WYDOT Transit Staff disseminates information about U.S. Department of Transportation programs and provides technical support to applicants in preparation of funding proposals. The WYDOT Transit Application Guidelines can be found at: http://www.dot.state.wy.us/home/planning_projects/transportation_programs/transit-in-wyoming.html. Local governments and non-profit entities are responsible for the development and operation of their local transit systems.

Private enterprise is encouraged to participate to the maximum extent feasible in providing public transportation. Eligible grantees may contract for services from, or lease vehicles to private operators.

FEDERAL TRANSIT ACT

SECTIONS 5305(d) and 5305(e) PROGRAMS (Formerly 5303 and 5304)

These programs are for planning funds for Metropolitan and Statewide Rural areas to foster the development of coordinated community and regional transit planning. Metropolitan planning funds (Section 5305(d)) are provided to Casper and Cheyenne and are annually combined with FHWA Planning Funds to create the Consolidated Planning Grant (CPG). Statewide planning (Section 5305(e)) is generally placed in a consolidated planning grant and is added to state planning funds and made available to both municipalities and small rural areas for their transit planning needs.

SECTION 5307 – URBANIZED AREA FORMULA GRANTS

This program provides grants to Urbanized Areas (UZA) for public transportation, capital, planning, preventive maintenance, as well as operating expenses. These funds constitute a core investment in the enhancement and revitalization of public transportation systems in the nation's urbanized areas, which depend on public transportation to improve mobility and reduce congestion. This funding is obligated to Wyoming's urbanized areas (Casper and Cheyenne) for public transportation services. All projects must benefit residents in urbanized areas (over 50,000 population) of Wyoming. Section 5307 provides 80% for capital, 85% for ADA-compliant vehicles and 50% of operating needs of transit providers.

The Casper Metropolitan Transportation Improvement Program (MTIP) and the City of Cheyenne MTIP for Fiscal Years 2018-2021, and as amended, are included in the STIP by reference and are available at:

Casper MTIP:

http://www.casperwy.gov/UserFiles/Servers/Server_62983/File/Government/Departments/Community%20Development/MPO/FY18-21%20MTIP.pdf

Cheyenne MTIP:

http://www.plancheyenne.org/wp-content/uploads/2012/10/The-18_21_TIPwith-sign.pdf

SECTION 5310 – ENHANCED MOBILITY OF SENIORS AND INDIVIDUALS WITH DISABILITIES

This program is intended to enhance mobility for seniors and persons with disabilities by providing funds for programs to serve the special needs of transit-dependent populations beyond traditional public transportation services and Americans with Disabilities Act (ADA) complementary paratransit services.

This program provides formula funding to increase the mobility of seniors and persons with disabilities. The former New Freedom program (Section 5317) is folded into this program. The New Freedom program provided grants for services for individuals with disabilities that went above and beyond the requirements of the Americans with Disabilities Act (ADA). Activities eligible under New Freedom are now eligible under the Enhanced Mobility of Seniors and Individuals with Disabilities program. Using these funds for operating expenses requires a 50% local match while using these funds for capital expenses (including acquisition of public transportation services) requires a 20% local match, 15% match for ADA-compliant vehicles.

SECTION 5311 – FORMULA GRANTS FOR RURAL AREAS

This program provides capital, administrative and operating assistance to State agencies, local governments, Indian tribes and non-profit organizations providing public transportation services in rural areas, defined as areas with fewer than 50,000 residents. The program remains largely unchanged under the FAST Act. Activities eligible under the former Job Access and Reverse Commute (JARC) program (Section 5316), which provided services to low-income individuals to access jobs, are now eligible under the Rural Area Formula program. Projects must benefit residents in non-urbanized areas of Wyoming. Section 5311 provides up to 80% for preventive maintenance, capital and administrative costs, 85% for ADA-compliant vehicles and 56.56% of the operating needs of transit providers.

SECTION 5311(f) – INTERCITY BUS PROGRAM

This section requires each state to spend 15% of its annual Section 5311 apportionment to develop and support a program of projects for intercity bus transportation. The goal of the program is to connect isolated rural areas throughout the country to larger communities. Wyoming has identified four potential routes that support this goal and serve the people of Wyoming. In Wyoming, intercity bus service is a vital link between otherwise isolated rural communities to other areas of the state and the rest of the nation.

SECTION 5339 – BUS AND BUS FACILITIES

This capital program provides funding to replace, rehabilitate and purchase buses and related equipment and to construct bus-related facilities. Eligible capital projects include the acquisition of buses for fleet and service expansion, bus maintenance and administrative facilities, transfer facilities, bus malls, transportation centers, intermodal terminals, park-and-ride stations, acquisition of replacement vehicles, bus rebuilds, passenger amenities such as passenger shelters and bus stop signs, accessory and miscellaneous equipment such as mobile radio units, supervisory vehicles, fare boxes, computers, and shop and garage equipment. This is an apportionment program divided between the Rural and Urban areas of Wyoming. The urban areas of Wyoming are Casper and Cheyenne. This program requires a 20% local match and 15% for ADA-compliant vehicles.

WYDOT has developed our TAM Plan in accordance with the [2016 TAM Final Rule 49 CFR Parts 625 and 630](#). Section 625.27 requires States to develop a group TAM Plan for subrecipients under the Rural Area Formula Program, authorized under 49 U.S.C 5311. Wyoming subrecipients all fall under a Tier II criteria and WYDOT has developed a Group Tier II TAM Plan. The elements of a Group Tier II plan consists of an asset inventory, condition assessment, list of decision support tools and investment prioritization. WYDOT implemented a hybrid method of Useful Life Benchmarks (ULB) combining the FTA default ULB's for vehicle categories with the age and miles previously used in FTA C 5010.1E. WYDOT implemented the vehicle categories to facilitate the condition assessment of the Capital assets (FTA funded vehicle and facility) and to assist with the decision support tool mechanism and investment prioritization. The listing below is WYDOT's categories for the TAM Plan and our vehicle purchases.

BUS CATEGORIES PER THE WYDOT TRANSIT ASSET MANAGEMENT PLAN (TAM PLAN)

- Heavy-duty large bus – buses with a minimum service life of 14 years or 500,000 miles, approximately 35-40 feet in length as well as articulated buses
- Heavy-duty small bus – buses with a minimum service life of 12 years or 350,000 miles, approximately 30 feet in length
- Medium-duty mid-size bus – buses with a minimum service life of 10 years or 200,000 miles, approximately 25-35 feet in length
- Light-duty mid-size bus – buses with a minimum service life of 10 years or 150,000 miles, approximately 25-35 feet in length
- Light-duty small bus – buses with a minimum service life of 10 years or 100,000 miles, approximately 16-28 feet in length
- Minivan/Car/SUV – vehicles with a minimum service life of 8 years or 100,00 miles

The following is a list of all eligible applicants for FTA programs 5310, 5311, 5339 and 5305(e). Other non-profit groups that provide public transportation service and would meet the requirements of the individual program will be evaluated on a case by case situation. Funding has been awarded for FY2019 for numerous projects and will be solicited on an annual basis for subsequent years.

WYOMING PROGRAM OF PROJECTS
FTA VEHICLES – SECTION 5310
FY 2019 – FY 2022

Mobility Management (MM) is currently a statewide project designed to assist with the coordination of transportation services on the local level. The project led to the development and continued maintenance of the website www.WyomingTransportationProviders.org that includes a comprehensive listing of available public and private transportation providers throughout Wyoming. The next phase of MM will be to assist WYDOT and local entities with the creation of Coordinated Transportation Plans and work to find solutions to mobility issues that impact the people of Wyoming.

Wyoming Independent Living and Wyoming Services for Independent Living administer the Voucher and Mobility Management Projects through annual project agreements with WYDOT.

FTA RURAL PUBLIC TRANSIT – SECTION 5311
FY 2019 – FY 2022

WYDOT funds approximately fourteen rural public transit providers under Section 5311. These rural transit agencies provide services in twelve of Wyoming’s twenty-three counties, with the state’s rural transit funding increasing the reach of the program into every one of Wyoming’s counties.

Agencies to be Federally funded for FY 2019

- Fremont County Association of Governments - WRTA (Wind River Indian Reservation and Fremont County)
- Sweetwater Transit Authority Resources (Rock Springs & Green River)
- Campbell County Seniors (Gillette & Campbell County)
- Buffalo Senior Center (Buffalo and Johnson County)
- Wyoming Independent Living & Rehabilitation
- University of Wyoming – (Laramie & Albany County)
- Southern Teton Area Rapid Transit – START (Jackson)
- Senior Citizens Council–Goose Creek Transit (Sheridan & Sheridan Co.)
- Goshen County Senior Friendship Center (Torrington & Goshen County)
- Lander Senior Center (Lander and Fremont County)
- Wyoming Services for Independent Living

***RTAP (Rural Transportation Assistance Program) – provides funding to assist in the design and implementation of training and technical assistance projects, Research and other support services to meet the needs of transit operators. This funding is used by WYDOT and WYTRANS.

****As per Wyoming S.S. 24-15-101, 1999 Session.

FTA PUBLIC TRANSIT – SECTION 5339
FY 2019 – FY 2022

A new formula grant program is established under Section 5339, replacing the previous Section 5309 discretionary Bus and Bus Facilities program. Projects have been solicited for FY2019 utilizing funds from the 2018 apportionment. Projects will be solicited for future fiscal years depending on the publishing of the guidance for the program and the apportionment available.

FTA RURAL PUBLIC TRANSIT – SECTION 5311(f) Intercity Bus
FY 2019 – FY 2022

The Intercity Bus program in Wyoming is primarily used to connect rural areas with larger regional intercity bus carriers. Consistent with this goal, the current high priority projects in Wyoming are:

- I-90 - South Dakota state line to Montana state line;
- Wyoming 191, 89, 30, 189 & I-80 – Jackson to Utah state line;
- I-25 – Colorado state line to Casper and Casper to Buffalo; and
- Wyoming 20/26, 20/16/14, US alt 14 and US 310/WYO789 – Big Horn Basin

Transit Projects Character of Work

Character of Work	Description
ADMINISTRATION	Funding for general administrative expenses. Example: salaries for the project director, secretary, or bookkeeper; marketing; insurance premiums; office supplies; administering drug and alcohol testing.
BUS GARAGE PROJECT	Construction of a bus garage by a subrecipient to be used for storage and maintenance of transit vehicles.
CAPITAL/BUS FACILITIES	Eligible capital expenses include the acquisition, construction, and improvement of public transit facilities and equipment for a safe, efficient and coordinated public transportation system to include but not limited to: purchase of buses, vans, radios, security and communications equipment, passenger shelters, park and ride lots, and wheelchair lifts.
CAPITAL/OPERATING/ADMIN/MAINT	Funding award to administer the subrecipients transit program to include operating, administration, maintenance and capital.
CAPITAL-SECURITY CAMERAS	Purchase and installation of security cameras.
CAPITAL-SECURITY FENCE	Purchase and installation of security fence.
CAPITAL-SOFTWARE	Purchase and installation of software.
CAPITAL-THREE BUS SHELTERS	Purchase and installation of three bus shelters.
INTERCITY BUS OPERATING	Funding to support the connection between rural areas and the larger regional or national system of intercity bus service.
MISCELLANEOUS CAPITAL-URBAN	Funding for eligible capital expenses strictly for the Urban areas of Cheyenne or Casper.
MOBILITY MANAGEMENT-STATEWIDE	Funding to build coordination among existing public transportation providers and other transportation service providers with the result of expanding the availability of service.
MOBILITY MANAGEMENT-URBAN	Funding to build coordination among existing public transportation providers and other transportation service providers with the result of expanding the availability of service in urban areas.
OPERATING	Expenses directly related to system operations to include fuel, oil, drivers' salaries, dispatcher salaries and licenses.
OPERATING/ADMIN/MAINT	A combination of Operating, Administration and Maintenance funding used for the support of public transportation projects awarded.
OPERATING/ADMINISTRATION	A combination of Operating and Administration funding used for the support of public transportation projects awarded.
OPERATING-VOUCHER-STATEWIDE	Funding for public transportation projects that exceed the requirements of ADA; that improve access to fixed-route service and alternatives to public transportation that assist seniors and individuals with
OPERATING-VOUCHER-URBAN	Funding for public transportation projects that exceed the requirements of ADA; that improve access to fixed-route service and alternatives to public transportation that assist seniors and individuals with disabilities in urban areas.
PLANNING	Expenses to support efforts to develop transportation plans and programs; plan, engineer, design and evaluate a public transportation project and conduct technical studies relating to public transportation.
PURCHASE FOUR HEAVY-DUTY BUSES	Funding for buses with minimum service life of 14 years or 500,000 miles, approximately 35-40+ feet in length as well as articulated buses.

Transit Projects Character of Work

Character of Work	Description
PURCHASE LARGE BUS	Funding for bus with minimum service life of 14 years or 500,000 miles, approximately 35-40+ feet in length as well as articulated buses.
PURCHASE MEDIUM-DUTY BUS	Funding for bus with minimum service life of 10 years or 200,000 miles, approximately 25-35 feet in length as well as articulated buses.
PURCHASE MINI-VAN	Funding for mini-van with minimum service life of 8 years or 100,000 miles.
PURCHASE ONE HEAVY-DUTY BUS	Funding for bus with minimum service life of 14 years or 500,000 miles, approximately 35-40+ feet in length as well as articulated buses.
PURCHASE ONE LIGHT-DUTY BUS	Funding for bus with minimum service life of 10 years or 150,000 miles, approximately 20-35 feet in length.
PURCHASE ONE LIGHT-DUTY VAN	Funding for vehicles with a minimum service life of 8 years or 100,000 miles. Cutaways and modified vans, approximately 16-28 feet in length.
PURCHASE TWO LIGHT-DUTY	Funding for buses with minimum service life of 10 years or 150,000 miles, approximately 20-35 feet in length.
PURCHASE TWO MEDIUM-DUTY	Funding for buses with minimum service life of 10 years or 200,000 miles, approximately 25-35 feet in length.
PURCHASE TWO MINI VANS	Funding for two mini-vans with minimum service life of 8 years or 100,000 miles.
RTAP	Funding to assist in the design and implementation of training and technical assistance projects and other support services tailored to meet the specific needs of transit operators in rural areas.
STATE ADMINISTRATION	Funding for WYDOT to administer the Federal programs - to pay salaries, overhead expenses, supplies and office equipment to administer the programs.
STATEWIDE TRAINING	Funding to assist in the design and implementation of training and technical assistance projects and other support services tailored to meet the specific needs of transit operators in rural areas.
VEHICLE PURCHASE-STATEWIDE	Purchase of vehicle for statewide subrecipient.
VEHICLE PURCHASE-URBAN	Purchase of vehicle for urban recipient - Cheyenne or Casper.

AERONAUTICS INTRODUCTION

In accordance with Wyoming Statutes §§ 10-3-401 and 10-3-402, the State of Wyoming invests in a system of approximately forty public-use, locally-owned airports located throughout the state. The Aeronautics Division maintains a statewide system of airport capital improvement projects, known as the Wyoming Aviation Capital Improvement Plan (WACIP), which is included as part of the Wyoming Department of Transportation's State Transportation Improvement Program (STIP). The WACIP is a five year plan that is a collaborative process involving citizens, airport users, airport sponsors, the Division and the Federal Aviation Administration (FAA). Creation of the WACIP is a year-long process which begins at the local level and results in a group of projects being submitted by each sponsor to the Division during the annual planning update. This is followed by an extensive review and prioritization by Division staff, as well as coordination with the FAA. The proposed WACIP is then sent back to the sponsor for comment before final consideration by the Wyoming Aeronautics Commission (WAC). It is important to note that the WACIP is a dynamic document with modifications submitted to the WAC for consideration each month. A two-year "snapshot" of the WACIP is taken in approximately June of each year and included in the STIP.

In administering the grants program, WS §10-3-401(d) requires that the WAC "establish, amend and have available" a five year capital improvement plan for airports in the state. The inclusion of the WACIP in the STIP is intended to satisfy this requirement. As mentioned above, the WACIP is regulated by a seven-member Aeronautics Commission made up of representatives from five districts and two members that serve at-large who are appointed by the governor and confirmed by the senate. The Director of WYDOT is an ex-officio member of the commission.

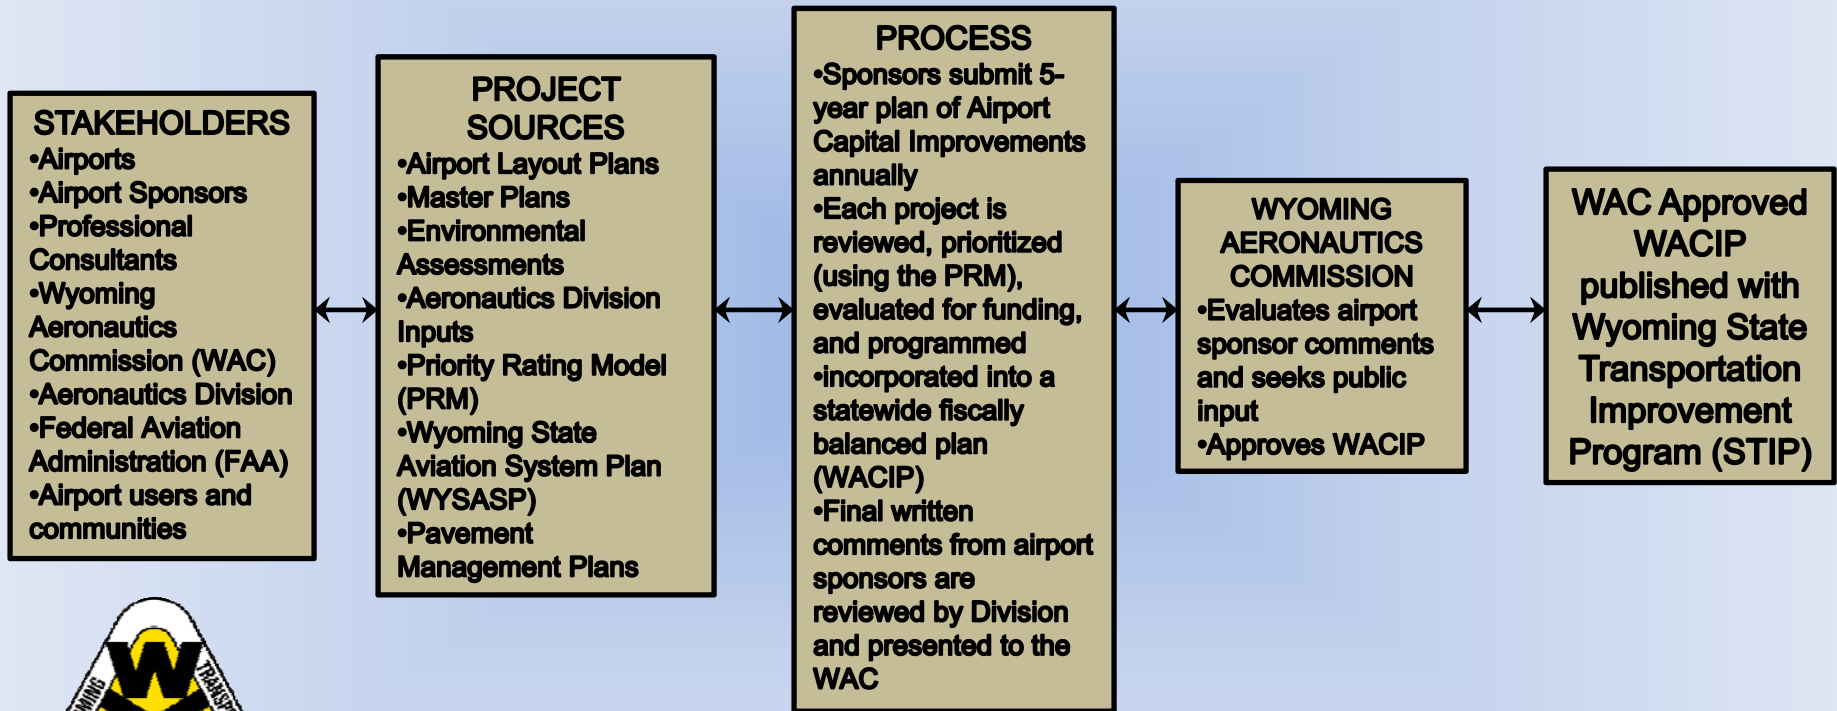

Wyoming is a channeling act state as referenced in WS §10-3-201(b). This means that in most cases when federal funds are used to finance airport development in Wyoming, the airport sponsor submits requests for reimbursement to the Division with the state making payment directly to the airport. The FAA is then billed by the state for the federal portion of the grant payment.

Federal funds are provided to the airports in varying percentages based on the airport category. Normally primary commercial service airports receive 93.75% and general aviation airports receive 90%. These funds are awarded directly to the airport by the FAA. In many states, the local airport pays the remaining balance. In Wyoming, however, the state invests in airport construction and improvement as well as air service enhancement. State and local shares of the remaining balance are based on the type of project and are defined in commission Policy and Procedures.

Development of a statewide capital improvement plan such as the WACIP is a complex process involving many different entities representing different constituencies. WYDOT is committed to achieving a safe, integrated aviation system that accommodates the wide variety of uses that occur at airports within the state. The WACIP is a collaboration of these different interests and commitment by each stakeholder to develop the state aviation system in the public interest.

For additional information on the Aeronautics Program contact Administrator Brian Olsen, at (307) 777-3953, 200 East 8th Avenue, Cheyenne, Wyoming 82001.

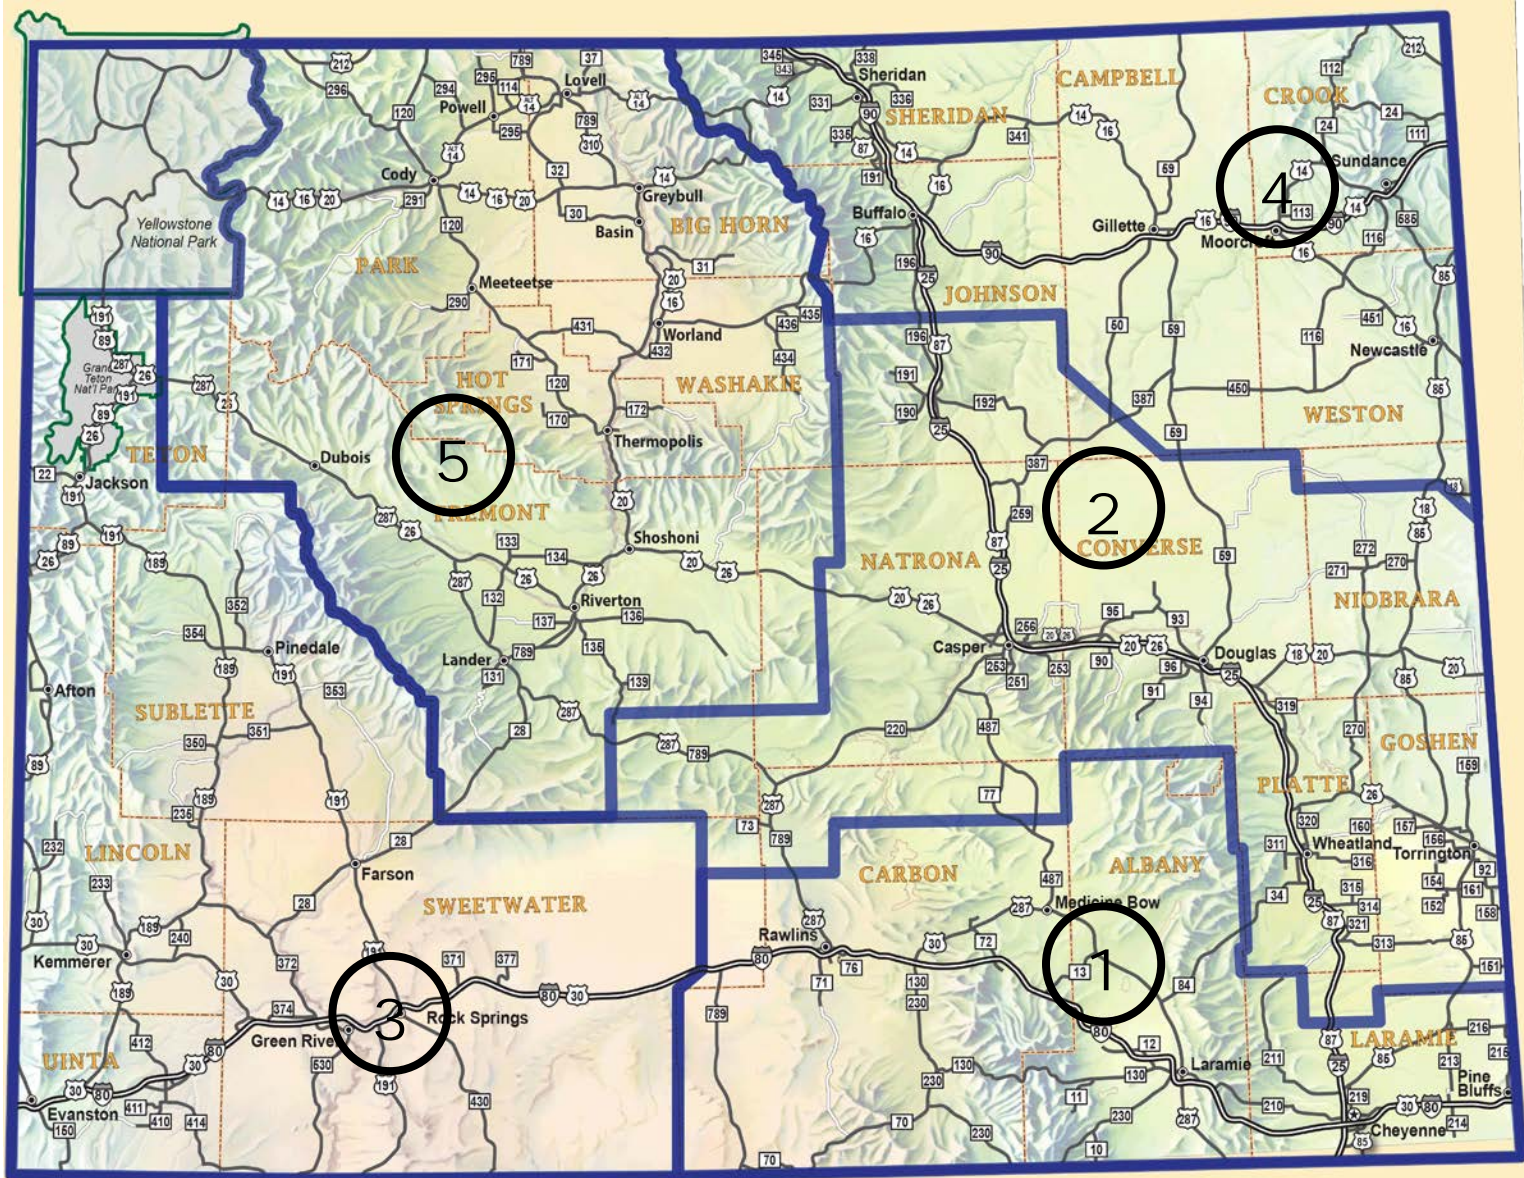

ELEMENTS COMPRISING THE WYOMING AVIATION CAPITAL IMPROVEMENT PLAN (WACIP)

Aeronautics Character of Work

Character of Work	Description	Examples
LAND/EASEMENT	Acquisition of land for airport expansion, improved safety or airport approach protection	Typically includes most associated costs including appraisals, review appraisals, relocation, and legal expenses
AIRCRAFT RESCUE FIREFIGHTING (ARFF) TRAINING	Assist with the costs to train Wyoming airport firefighters at the in-state training facility located at the Casper-Natrona County International Airport	Water, fuel, firefighting retardant, facility maintenance and repair
AIRPORT EQUIPMENT	Acquire, maintain, remove fixed and mobile airport equipment	Automated Weather Observation Systems (AWOS/ASOS), navigational aids, snow removal equipment, operations/inspection vehicles, Aircraft Rescue Firefighting (ARFF), fuel system and friction measurement equipment
AIRPORT SPECIFIC-USE APRON	Construct, expand, rehabilitate, reconstruct, strengthen, or remove areas of an airport which have additional facilities or equipment to accommodate certain types of activity	Deicing containment facility, fuel facility, agricultural spraying apron
AIRSPACE OBSTRUCTIONS	Marking, lighting, or removal of airspace penetrations in the vicinity of an aviation facility	Communications tower, fence, vegetation, helipads
BUILDINGS	Acquire, construct, repair, expand, rehabilitate, remove, relocate airport buildings	Commercial terminal, general aviation terminal, snow removal equipment building, operations equipment building, aircraft hangar, air traffic control tower
FENCING	Construct, relocate or remove airport fencing	Wildlife or security fencing
AIRPORT LIGHTING OR SIGNAGE	Install, rehabilitate, and relocate airport lighting and signage	Approach lighting system, pavement edge lighting, security lighting, airport beacon, Runway End Identifier Lights (REIL), electrical vault, lighting system control, illuminated signs
PAVEMENT	Construct, expand, rehabilitate, reconstruct, extend, widen, strengthen, relocate, or remove airport pavement	Access road, auto parking lot, aircraft parking apron, runway, taxiway, taxilane, helipad, helicopter parking apron, runway or taxiway shoulders, jet blast pad
PAVEMENT MAINTENANCE	Preventative maintenance to preserve existing pavement	Crack sealing, crack surfacing, spall repair, seal coat, and marking
PLANNING STUDY	General airport planning, project specific studies	Airport Master Plan, Airport Layout Plan (ALP), instrument approach analysis, commercial terminal relocation feasibility study

Illustrative Projects

The following list includes projects that could be considered if Wyoming were to receive additional funding thereby allowing the State to proceed with these projects if deemed necessary. The focus of the projects listed below is on freight and economic issues the State faces, and is illustrative only.

- There is a need to continue to provide additional truck parking along I-80 at various locations. Several areas between Evanston and Rock Springs would benefit from additional truck parking as well as between Rock Springs and Rawlins. The area between Rawlins and Laramie has severe winter weather conditions and providing additional truck parking in this area would increase safety, especially during winter months.
- In general, a snow fence study of the I-80 corridor across Wyoming has identified locations where additional new snow fence is recommended. The snow fence helps reduce the crash potential during adverse weather and assists in allowing I-80 to remain open. This allows freight to continue to move across Wyoming in a safe and economical manner. A similar study was completed for US 287 south from Laramie. Both routes are NHS and carry higher volumes of traffic with high percentages of trucks.
- Several of our bridges near truck services and/or major destinations are either older or requiring some geometric improvement to accommodate traffic, particularly for freight movements.
- Traffic studies have indicated that additional truck climbing lanes are warranted in some areas of the I-80 corridor due to the increasing freight movements and winter mobility issues on this corridor. These climbing lanes reduce congestion and improve the overall level of service for I-80.
- Provide passing lanes to improve safety, mobility and reduce congestion on various 2-lane state highways. Projects will be targeted at those corridors that are experiencing high traffic/truck volumes that have a large mix of commercial and industrial vehicles.
- Widening of tunnels through the Wind River Canyon in Fremont County
