A BILL

for

AN ACT relating to gambling; amending the definition of professional gambling to include operating online casino or sweepstakes games and knowingly providing services related to those games; creating definitions; specifying construction of provisions related to the promotional advertising of prizes; and providing for an effective date.

Be It Enacted by the Legislature of the State of Wyoming:

STAFF COMMENT

- **The bill draft is intended to address questions concerning whether existing gambling law covers online casino and sweepstakes games, including whether those games involve risking property ("anything of value whether tangible or intangible, real or personal,**

public or private") for gain ("the direct realization of winnings"), whether simulated games are covered, and whether the law clearly reaches operators and related service providers.

- **This bill draft addresses online casino and sweepstakes games under Wyoming's existing professional gambling law.**
- **Under current law, professional gambling includes, in effect, operating an illegal gambling business by "aiding or inducing another person to engage in gambling, with the intent to derive a profit."**
- **The bill draft adds operating an online casino or sweepstakes game, and knowingly providing services to operate, offer or promote those games, to the definition of professional gambling.**
- **Amending the definition of professional gambling makes related existing terms applicable, including "gambling device," "gambling record" and "gambling proceeds," which are subject to seizure and disposition under existing law.**
- **Because professional gambling is already a felony under W.S. 6-7-102, the conduct added by the bill would be subject to that existing felony penalty, copied below.**

6-7-102. Gambling; professional gambling; penalties.

(b) A person who engages in professional gambling commits a felony punishable by imprisonment for not more than three (3) years, a fine of not more than three thousand dollars ($3,000.00), or both.
